MORE LUXURY OUTSIDE

You'll be understandably proud of the long, low, flowing lines of your new Plymouth. Its 17 feet of shining steel make it the higgest car of the low-price 3 (8.4 inches longer than one car, 5.3 inches ahead of the other). And its glamorous new Full-View windshield. with swept-back corner posts, gives you wider, safer visibility than either of the "other 2" low-price cars.

MORE COMFORT INSIDE

Only a truly big car like Plymouth can give you the luxury of a big car ride. Plymouth's longer and stronger frame, wider rear springs and Oriflow shock absorbers provide the smoothest ride of the lowest-price field. And Plymouth's great new 6-cylinder PowerFlow 117 gives you the smoothest, thriftiest performance. Another top engines. Plymouth's new 167-hp Hy-Fire V-8.

You'll be understandably proud of the long, low, flowing lines of your new Plymouth. Its 17 feet of shining steel make it the higgest car of the low-price 3 (8.4 inches longer than one car, 5.3 inches ahead of the other). And its glamorous new Full-View windshield. with swept-back corner posts, gives you wider, safer visibility than either of the "other 2" low-price cars.

MORE COMFORT INSIDE

Only a truly big car like Plymouth can give you the luxury of a big car ride. Plymouth's longer and stronger frame, wider rear springs and Oriflow shock absorbers provide the smoothest ride of the lowest-price field. Its 17 feet of shining steel make it the higgest car of the low-price 3 (8.4 inches longer than one car, 5.3 inches ahead of the other). And its glamorous new Full-View windshield. with swept-back corner posts, gives you wider, safer visibility than either of the "other 2" low-price cars.

MORE COMFORT INSIDE

Only a truly big car like Plymouth can give you the luxury of a big car ride. Plymouth's longer and stronger frame, wider rear springs and Oriflow shock absorbers provide the smoothest ride of the lowest-price field. As shown by the chart above, based on figures of the Bureau of Labor Statistics for a national average, the cost of natural gas to the residential consumer has gone up only one-eleventh as much as the cost of living in sixteen years.
